

# Medallion Hanging Hardware

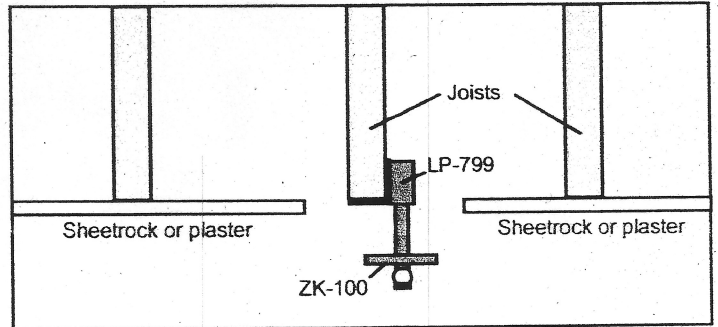

Use either the ZK-100 Series Kit **(B.)** by itself for through brace mounting OR add the LP-799 hanger **(A.)** bolted to a joist 2 x 4 or better. The ZK-100 Kits have several lengths of 1/2" NPS pipe to accommodate various thicknesses of medallions plus the distance needed for the pipe to anchor properly.

## A. LP-799 Joist Hanger

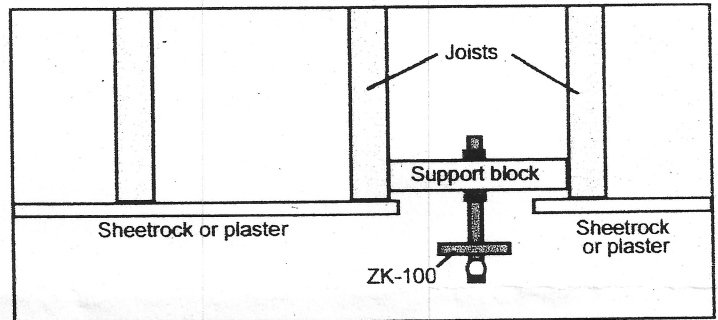

Should be mounted with four 1/4" lag bolts—two from the side and two from the bottom.

## A. Installation

## B. Installation

## B. ZK-100 Series Installed with Medallion
