332-CB-115

528-LPN-CX

332-CB-115 Sometimes, simple is best. This 16" dia bowl fixture is made from marbled white glass which is just lovely when lit. Supplied to you 36" tall that can be shortened to about 18" by removing chain links. The shade itself, can be ordered by itself for table lamps too. **0115G** for just the shade

529-LPN-JX & 528-LPN-CX Mission chandeliers

Lovely shaped pan measures just under 14" square. Each socket is rated for a 100 watts but since these are art

glass shades, we recommend 60 to 75 watts per socket. Note the lovely Lost Wax cast center decor and the side panels. All absolutely authentic in every detail. Diamond and chain patterns were originally made by Sechrist of Denver, Circa 1900.

Overall height with shades: 40" but can be shortened by removing chain links.

Three art glass choices available for these shades and they can be seen on the shade page.

107-MCX-FL With four hundred watts of light, our girl Raechel has more than enough light for her reading. Another nice quiet setting to concentrate on design history. And our fine Mission floor light is just the ambience for a living room, play room or den. Four brass, pull chain, sockets rated for 100 watts each with a nice large shade (available in three art glass colors). Shade is 21 3/4" square and the height of the light is just shy of 66" to the top of the finial. Base measures just under 14" square and contains a heavy cast iron load to maintain stability. Supplied in Darkened antique finish-a nice light indeed. The three colors of art glass for this Sechrist chain motif shade are seen on the shade page.

275-SMG-NW

Single shade Mission Newel Post Light.

This single shade fitter is for a 4". We recommend our 082G shade as shown but interesting effects can be obtained by using 098G or 094G or even 085G shades. The socket is rated 100 watts. Meas: Height: 31"; Can be made as short as 25"; Base: 4 1/2" square

115-AC1-PL Very nice solid brass base Arts and Crafts table lamp. The simplicity in design with long flowing decor, but rigid support, emphasizes that modified mission style we call Arts & Crafts.

The shade design is reminiscent of the free flowing designs of Green & Green This light has two pull chain sockets, each, rated for 100 watts. We recommend small 60-75 watt bulbs to protect the art glass.

115-AC1-PL

Both 114 & 115 Table Lamps Meas: 19" tall; and have a 15" x 15" shade; and the base is 7" x 7".

276-PNW-GS

276-PNW-GS

This is a mission Newel Post light-not a table light. Recreated from an antique Newel Post light made by R. Williamson & Co., Chicago, Ill from their catalog #14, Circa 1890. Height: 35", Spread 22.5" Takes 4" fitter shades. Recommend our 082G shade as shown. 500 watts of light to lighten the darkest hallway.

114-AC2-PL Very nice solid brass base Arts and Crafts table lamp. The simplicity in design with long flowing decor, but rigid support, emphasizes that modified mission style we call Arts & Crafts.

The shade design is reminiscent of free flowing designs of Green & Green
