

Empire Chandeliers

This series of lovely ceiling lights was designed for the restoration project at Fort Worden here in Port Townsend using an original antique "Empire" 1900 original Chandelier. Since the chandelier and The Fort were of the same era, we were able to create an energy saving, yet historically accurate series of lighting. Comes in a standard antique brass finish.

They can be supplied with either two or four 13 watt Electronic Compact Fluorescent Sockets with your choice of bulb hue. All CF electronics have an Energy Star 4 rating. *These fixtures can also be supplied with 4 incandescent sockets.* Easily maintained by removing the shade. The shade is held in place with four fitter screws, easily removed without tools.

92-CBL-CF

92-RCB-CF

All fixtures are 20" in diameter and come complete with our 091G white opalescent shade.
