Pottery Plaster Ceiling Medallions

These ceiling Medallions are made from "Pottery Plaster". It's the same plaster used to make figurines. It is also re-enforced with hemp fiber. This media is five times stronger than normal plaster and Pottery plaster gives that smooth parian type finish like nice figurines.

Scale approx: 1"equal 1 foot (red ruler)

Weights & measurements vary slightly and some *minor* imperfections occur due to their hand made nature--like the antiques.

Installation **Instructions** are supplied.

Due to the high weights of these castings; and the amount of packaging required to protect them, **actual** freight rates must be applied to plaster medallions.

ZK: 10; 11; 12; 13; 14; 20 & 21 can be shipped by UPS. Minimum shipping at this time is about \$25.00 Multiples a bit cheaper

ZK: 15; 16; 17; 18; 19A need to be shipped by common carrier. They require 4" of packing around the item & to be put on a pallet to avoid damage. Freight will be quoted.

Best to order a medallion when you order a light that would have to be sent by common carrier anyway. You'll get a gigantic savings on freight charges when the light and medallion are combined on the same pallet.

These medallions are custom made in our mold shop here in California. Lead times depends on our work load.
