Isn't it about time someone brought out a really nice Deco backplate and knob? well, we did it and with the backplate in five different templates. The Deco Knob to match these great plates. L-52K is a very heavy lost wax cast knob, 2 7/8" x 1 3/4" by 2 1/4" tall, there still might still be a few surface blemishes. Still antiqued and mounted this is a very impressive set. The stamped door plates measure: 9" tall, 2 5/8" at the widest point. All other specs are like L-15 series in the catalog. All Deco items on this page are copyrighted and registered designs of AABCO. ZLW-26DEC Lost Wax cast, front door grill and knocker set. Very Deco Overall Ht: 9 3/4" by 5 5/8" at the widest point. Requires a hole in the door 5 3/4" tall x 3 3/4", to mount the set. Funny, since we have been making these, we have had a couple customers, call these "speak easy" doorknockers. Interesting. Now perhaps we would sell a few more of these if Prohibition was brought back, but, I promise you that putting one of these on your front door will NOT result in lines of people knocking at your door & whispering: " Joe sent me " !!

It will just look nice. But, then again, you might keep a beer or a cool lemonade ready anyway--for friends who stop by, just to admire it.
