

ZLW-222

ZLW-120

Sold Each

ZLW-120 Of all the antique upright pianos still playing, how many still have the decorative candle sconces that originally came with them? Not many. So, we offer the most beautiful sconce we could find to fix that situation...or...to make a striking decorative addition to anything. Lost Wax cast with beautiful detail and polished. We have decided to sell these each, since just one, with candle, makes a super mood enhancer in just the right spot. The sconce arm swings left and right. Backplate: 5" tall x 2 3/4"; projects: 10" at 90°. Buy two for a pair.

ZLW-222 Do you require the most outrageous plant stand available ?? Well, we have it ! Made by Lost Wax casting from Silicon-Bronze and antiqued with a hi/lo finish, this is a true work of art. It weighs in at about 102 pounds-varies slightly with castings. Simply breath-taking, it stands 44" tall and of course is well suited for the display of bronzes; valuable lamps; premium porcelain pieces etc. The top is 13 1/4" sq & the base is 14 1/2" sq. Comes kit form in three boxes (after having been assembled and dis-assembled and serial# coded) to save shipping charges. Instructions, (good ones), supplied. This is a quality item with support to match. We honestly do not know of a nicer pedestal on the market. If you do...please let us know. We make only a hand full of these at a time. If you need a dozen or two, give us some lead time. This pedestal is simply wonderful for fine hotels; restaurants or very exclusive victorian mansion decor where a "look at that !" is desired.

ZG-9 Wall mounted soap dish w/- liner. 4 1/2" w x 3 1/2" tall; projects: 4 1/2"

ZG-11 Soap dish and waterglass holder. 4 1/2" w x 8 3/4" tall; projects: 5 1/2"

ZG-12 Nice triple holder. 8 1/4" wide x 8" tall; projects 6 1/2". Mounting plate is 2 3/4" dia. Note details of holders below. Solid brass recreation.

ZG-20 Very useful combination...water glass and toothbrush holder. Projects and height: 5 1/2"; Ø 2 1/2" water glass; room for six toothbrushes.

ZG-12

All soap dishes come with solid brass removeable strainers. Glass holders take a Ø 2 1/2" glass. Toothbrush holder holds 6 brushes.

L-7500 Series...it's about time !
Available elsewhere are plain-ugly turn latches for yale type cylinders. We decided a bit nicer ones were necessary and here they are available in four lengths. Strong turn. Used when two identical yale cylinder type plates are installed.
L-7500...1" **L-7525...1 1/4"**
L-7550...1 1/2" **L-7575...1 3/4"**
Measurements are lengths of the cylinders to accommodate various door thicknesses.

L-150S and L-175S Two more, longer, key cylinders to go with our L-9SP lock. We already offer L-9CC (1") and L-9C4 (1 1/4"), now meet L-150S (single 1 1/2"), L-151D (double matched 1 1/2" cylinders). L-175S (single 1 3/4"), L-176D (double matched 1 3/4" long cylinders). Use these plus our new turn latches in the L-7500 series for a solution to all door thicknesses
