All Lost Wax Cast Solid Brass

Here are some lovely lights made by Lincoln Lighting Co., Circa 1930, in the best Art Deco Tradition and Style. We make these deco lights with a great range of options and to fit all ceiling heights from short to tall. Deco lights from numbers 62 thru 69 are for shorter ceilings. You can buy them with solid cast bottoms or with a glass shade bottom. You can get them solid brass finish or Nickel plated; and you can chose frosted or traditional deco orange tinted shades, for any light. That makes 8 options for the short light and there are that many, again, for the tall lights too. We feel like another company who

says that you can have it "your" way. And, whichever way you decide, a matching sconce is available too. So is a small 2 shade hallway light. All deco light prices include the shades. Rated 100 watts per shade. **Two Shade Lincoln Deco pendant, in brass or nickel, frosted or orange shades**
41-DPA-FS Solid Brass Deco Light, supplied with two frosted shades
42-DPN-FS Solid brass-**Nickel Plated** Deco light with two frosted shades
43-DPA-OR Solid brass Deco light-Supplied with two orange tint shades
44-DPN-OR Solid brass Deco light- **Nickel Plated**- w/two orange shades
All Two light pendants above are 32" in length when supplied. Shorten to as much as 24" by removing chain links or order free kit to make 18 1/2" tall.

Five light Deco Chandeliers: Height: 36 1/2" to 48 1/2"; adjustable by removing chain links. (see short kit below); Spread: 19"
All Deco lights here are priced **COMPLETE** with shades...no add ons. All sockets are rated for 100 watts each and our lights are UL approved.

With the substitution of the free "short kit" the height will be 26 1/2" with the old finial, or, 24" with new short finial.

Short Kits for Deco hanging lights. Our Deco lights are true reproductions of the 1930 lights made by Lincoln. However, for lower ceilings, we offer a short ceiling kit which allows the fixture to be much shorter than the originals. The kit consists of a new flatter canopy with hook, that goes directly to the fixture. It is screwed directly to the crossbar with two outside threads. Kits available in both brass & nickel--at NO additional cost. Just specify the

"short ceiling kit" **instead** of the normal ceiling arrangement, when you order. Mention these stock numbers to be sent instead of the regular mounting options:
Stock numbers to order with your light:

014BR--the brass kit (pictured); **015NC**--for nickel plated lights
